Our Current Reality

What are the factors driving the need for improved BIM collaboration?
Our Current Reality

What are the factors driving the need for improved BIM collaboration?
Our Current Reality

What are the factors driving the need for improved BIM collaboration?

- Building Project Complexity
- Inefficient Model Sharing Infrastructures
- Disconnected Communication
A360 Team
Why A360?

A360 enables design & engineering-centric project teams to work efficiently together in one central workspace.

Common Questions
Common Questions | Data Security

AUTODESK TRUST CENTER

AUTODESK SECURITY UPDATE

January 29, 2015 3:00 PM
Autodesk is aware of the GHOS1T vulnerability and we are in the process of patching impacted systems. This may result in temporary disruptions to some services. Any additional information will be shared here as needed, on the Autodesk Trust Center.

October 17, 2014 11:00 PM
On October 16th, Oracle announced security vulnerabilities affecting certain versions of MySQL. Because our customers' security is our first priority, we are performing emergency maintenance on impacted services to mitigate these issues. Please excuse potential service interruptions during this time.

We self-certify compliance with:

SAFE HARBOR
U.S. DEPARTMENT OF COMMERCE

To view Autodesk's certification, please visit:

Common Questions | Perceived Need (C4R)

✓ “We don’t work with consultants that are using Revit.”

✓ “We only have one office.”

✓ “We are concerned that our consultants could edit our models.”

✓ Would you like the flexibility to work from home, from the coffee shop, from a jobsite, or even from your client’s office on the live Revit project?

✓ With Collaboration for Revit, you’ll know who synced your models and when. And you can roll back to any previous sync.
Common Questions | Perceived Need (A360 Team)

✓ “Our needs are met by another cloud storage solution.” (e.g. Dropbox)

✓ What if your client could look at your 3D models in a browser or on an iPad and provide feedback?

✓ What if all of your team’s communications were tied directly to the project, and you were automatically notified of updates?
Common Questions | Storage

- “Is 10GB/user enough storage?”
- “I used to have 25GB/user on Autodesk 360 / A360 Drive.”

- Keep in mind that you will be using A360 Team for active projects. Completed projects may be deactivated.

- Your 25GB/user is unaffected by A360 Team. A key difference is that the 10GB/user on A360 Team is pooled storage space, so it adds up quickly for project teams.
How to Get Started with Your A360 Collaboration for Revit Subscription

Feb 23, 2015

Issue:
Information on how to get started and install A360 Collaboration for Revit.

Solution:
1. Once you or your company have completed your purchase of Collaboration for Revit, your Contract Manager or Software Coordinator will need to grant access to the users so that they can use the service.

If you are a Contract Manager or Software Coordinator the following article has information on how this can be done:

Setting User Permissions for Products, Services & Support
